Islemount's independent status and professional experience uniquely enable us to respond quickly and resourcefully with advice to debtors, creditors and potential acquirers of companies and assets that are faced with or undergoing reorganization proceedings, recapitalizations or out-of-court restructurings.

We offer expert and accurate advice, extensive transactional experience and a comprehensive advisory service free from the conflict often inherent in capital markets or other investment banking driven activities. Our international experience includes recapitalizations, sales and acquisition of distressed companies and assets, debt and equity restructuring and a wide range of other advisory services.

We strive to achieve consensual deals that are in the best interests of our clients.
